Workshop on 'Application Development using advanced FPGA Boards' (C2S Project)

A one-week workshop on "Application Development using Advanced FPGA Boards" for M.Tech students is being organized by Department of ECE, RSET. This workshop aims to provide hands-on experience and practical knowledge in the field of Field-Programmable Gate Arrays (FPGA) for application development. The advanced FPGA boards on which application development will be done in the workshop are Pynq z2 and Zynq Ultra Scale+ ZCU104. The workshop will aid M.Tech students in doing their mini project work and will make them industry ready.

Venue:- VAES Class Room & Schokly Lab , PG Block

Duration :- 12/02/24 – 17/02/24
